

Seri Q 10 Film Coated Tablet

Active Ingredients: Co-enzyme q10 150mg, Selenium 20 mcg, L-Arginine 100mg, L Carnitine 150 mg, Lycopene 5000mcg, Vitamin C 40mg, Vitamin E 5mg, Zinc 8 mg, Omega 3 (EPA 90mg, DHA 60mg, Cyanocobalamin 2.4 mcg, Omega 6 35mg, Omega 9 35mg)

Product Introduction:

Seri Q 10 helps improve cardiovascular health and helps with antioxidant activity in the heart. It also helps to protect delicate cells found in the retina from oxidative damage. It helps to lower blood pressure, manages cholesterol levels and reduces the risk of heart disease. Coenzyme is a vitamin-like molecule found in every body cell and used by the cells to create the energy needed to develop and maintain the body overall. It also acts as an antioxidant that helps to defend cells from harmful substances as an antioxidant. Minerals like zinc help the immune system fight off bacteria and viruses.

BENEFITS OF SERI Q10:

- Coenzyme is filled with antioxidants and helps to support a healthy heart
- Boosts energy, regulates mood and controls stress levels
- Keeps the skin healthy and improves eyesight
- It helps in 95% of the body's energy production
- Improves blood pressure and maintains cholesterol levels
- Regular consumption helps in supporting cardiovascular functions and regulates blood pressure levels
- It manages the formation of blood clots and protects the cells from damaging free radicles to manage premature ageing

- Omega 3:
 - Lowers blood pressure, reduces triglycerides in the blood, helps reduce joint inflammation in rheumatoid disease, helps nourish brain and eyes functions, helps prevent and alleviate dementia, depression, asthma, migraine, and diabetes, and helps reduce the risk and preventing heart disease and ischemic stroke.

- Vitamin C
 - A water-Soluble Vitamin which acts as anti-oxidants that scavenges oxygen radicals in the aqueous phase to regulate Blood pressure also maintains Joints health by stimulating the production of collagen and proteoglycan, which are important for joint cartilage
- Vitamin E
 - A Lipid Soluble Vitamin which acts as anti-oxidants that scavenges oxygen radical with in membranes. It also helps in protecting nervous tissues and to treat osteoarthritis by stimulating the growth of cartilage cells.
- Vitamin C & E: can work together to protect cells from oxidative damage and also maintain skin health and immune function in elderly.

Direction for use:

- Take 1 Tablet daily after meals or as directed by a healthcare professional.
